- ❁ **Eliminate the guesswork!**
- ❁ **Plan your future with confidence using cycles.**

In Cycle Management Training, you will apply mathematics to time to discover how your birth date determines not only your true purpose in life, but the pathway nature intends you to follow to achieve your goals and ambitions in a most harmonious and natural way through the law of cycles.

Awareness of these cyclical influences over your thoughts, actions, and emotions can be a huge help in conducting your daily affairs. Life unfolds in patterns--in cycles of challenge, opportunity, and retrenchment. You will understand the cycles unique to you.

Experience the harmony and confidence of knowing at last you have the tools, resources, and motivation to achieve greater harmony, balance, and success in both your personal and business lives.

Knowing your personal cycle will reveal the steps of progress you can apply to bring about your success.

We will share with you:

- ◆ the reasons why your thoughts and experiences fluctuate from day to day
- ◆ how to calculate your personal cycle and understand how to use the quality of time to advantage
- ◆ how you can maximize your daily efforts through an understanding of cycle years, days, and hours
- ◆ how to use time more effectively in achieving greater success in your business efforts
- ◆ how to work with others by using cycles to create the best outcome to everyone
